

About Us

Utility SwopShop was formed in 2014 with a vision to bring visibility, transparency and open energy supply contract trading to the UK utility brokering market place.

The team has collected over 20 years of experience within the energy and financial industries to deliver the "best prices" and outstanding customer support.

We want to look after organisations by simply making sure that they get the best price available to them. We do this through continually monitoring the markets and supplier rates, pricing automation and through volume buying via the wholesale energy market.

Compare Business Utilities With Utility SwopShop

Our Energy Is Focused On What's Important To You And Your Business. Making Sure Our Clients Are Always On The Best Deal Possible.

OUR EASY SWOP PROCESS

Step 1

Get Your FREE Supplier Audit

Utility SwopShop will carry out a free desktop supplier audit to pinpoint where savings could be made.

Step 2

Receive Your Proposal

Utility SwopShop will carry out a free desktop supplier audit to pinpoint where savings could be made.

Step 3

Supplier Implementation

We then seamlessly switch your energy supplier with no interruption to your company.

Step 4

Ongoing Monitoring

Our team of experts will constantly liaise with utility suppliers to ensure you're always on the best tariff.

Discover just how simple it is to find out how much money you could be saving by using Utility SwopShop to compare and monitor your business energy suppliers.

We manage the whole process for you, from invoice audit through to contract closure and on-going monitoring support.

"Utility SwopShop made this process simple and fast. They contacted us and I sent over copies of our most recent bills and gave them a letter of authority. They came back to me with a solution that allowed us to switch suppliers and gain a great 3 year deal"

**-Managing Director of a Family-Run
Hospitality and Distribution Company**
